We Are Leading AI Trading Experts In Forex And Crypto Currency.

Our Website: www.rmsptrade.com

What is Artificial Intelligence

Artificial Intelligence (AI) refers to the simulation of human intelligence in machines that are designed to think and act like humans. These systems are capable of performing tasks that typically require human intelligence, such as visual perception, speech recognition, decision-making, and language translation. AI is an interdisciplinary field, involving computer science, mathematics, psychology, neuroscience, cognitive science, linguistics, operations research, economics, and other disciplines.

What is **AI Trading**

AI trading, also known as algorithmic trading or automated trading, refers to the use of artificial intelligence technologies to make trading decisions and execute trades in financial markets. AI trading systems leverage various techniques, including machine learning, data analysis, and complex algorithms, to analyze market data, predict market movements, and execute trades more efficiently than humans.
